QUICK SCENTS

Quick Scents packets are formulated to respond to changing levels of waste and temperatures based on the amount of active ingredients in each formula. Quick Scents Plus has higher levels of active ingredients and is a great solution for high heat, heavy-traffic situations. For moderate conditions, use Quick Scents Regular, and if the weather cools down or you are doing same day service for a special event, use Quick Scents Event.

Deep-Blue Dye
Drop-N-Go
Non-Formaldehyde
No Mixing

QUICK BLUE

Safe-T-Fresh has created Quick Blue, the first dual-film effervescent packet! This extraordinary, patent-pending process uses a paper film on one side and PVA film on the other. The result is a packet that dissolves quickly and is dispersed throughout the tank by an effervescent action. And it works in brine!

Liquid & Portion Control

BIO

The benefits of using Safe-T-Fresh BIO products go well beyond odor control and protecting the environment, eliminating waste build-up in tanks, hoses and pipes. The natural bacteria, when left in a tank or system, multiply over time and increase in effectiveness, breaking down solids into a liquid. Your tanks, hoses, and pipes will no longer have hardened waste that produces continual odor. And, waste treatment plants will benefit from the added natural bacteria, which helps you obtain or maintain your current dump permits.

BIO deodorizers are available in packet and liquid form. Use the Quick Scents Bio 30-gram packets for moderate levels of traffic and heat and the Bio 60-gram for high heat and traffic. For liquids, use Safe-T-Fresh 3K in moderate conditions and Safe-T-Fresh 5K for extreme conditions.

Most Environmentally-Friendly Portion Control

ECO BLUE

Announcing Eco Blue™! The MOST eco-friendly deodorizer to hit the market, from Safe-T-Fresh. A revolutionary new packet product with no hazardous materials that doesn't sacrifice fragrance or deep-blue color. Groundbreaking, patented malodor control technology eliminates the chemical process most current deodorizers use by naturally absorbing malodors. Eco Blue™ is biocide and bacteria free, making it fully biodegradable and treatment plant friendly. Safe-T-Fresh's new Eco Blue™, will provide a worry free week of service and refreshing lavender scent, at any temperature. Wow your customers and protect the environment. Try Eco Blue™ today!

Liquid Deodorizers

STF

Many operators may not remember that Safe-T-Fresh was the very first environmentally-safe deodorizer developed for the portable-sanitation industry in 1970. Even then, Satellite was aware that protecting the environment was everyone's responsibility for the sake of future generations.

Today, Safe-T-Fresh is reformulated with the most advanced ingredients for fighting odors. Through research, testing, and field observation, we've created a deodorizer that actually changes odor molecules instead of masking them. This revolutionary breakthrough in molecular technology continues the tradition of being environmentally safe, while delivering a much higher level of odor control. It is available in a variety of concentrations which allows you to choose what's best for your situation.

Protects Equipment & Customers

WATER TREATMENT

Keep your handwash units clean and safe with Safe-T-Fresh's line of Water Treatment Products. Safe-T-Fresh knows how important it is to provide your customers with clean, safe water for hand washing. That's why Safe-T-Fresh has developed the Water Treatment Product Line; to help protect your customers and equipment.

ANTI-FREEZING CONCENTRATE

Increased demand for freestanding and in-unit handwash sinks is widespread. In the winter you're going to need a safe, clean, anti-freezing agent to keep your equipment protected.

Safe-T-Fresh's new EZ Flow™ will safeguard your handwash units from the coldest climates. EZ Flow™ is a powerful and SAFE anti-freezing concentrate, when used properly it will keep your handwash unit's

freshwater from freezing. It can also be used to winterize handwash units that are not in service.

Designed with Advanced Engineering, EZ Flow's™ bio-safe formulation leaves your hands feeling smooth and soft.

- **SOOTHES AND SOFTENS SKIN**
- **KEEPS FRESHWATER TANKS FROM FREEZING**
- **ANTI-FREEZING CONCENTRATE**
- **WINTERIZE HANDWASH UNITS**

**Washing hands in freezing temperatures can cause your hands to cool rapidly. Limit the time your hands are exposed to freezing temperatures and cold water to avoid risk of frost bite.*

CHLORINE TABLETS

KILLS BACTERIA IN WATER

Keep your customers safe with Safe-T-Fresh's Chlorine Tablets. One 1-gram tablet per 20 gallons of water will keep your handwash unit's freshwater tanks clean and bacteria free. Effective in killing bacteria's like e-coli and salmonella in standing water. This do-it-yourself cleaning method is a no brainer, it will keep your customers hands safe and clean.

Chlorine Tablets can be used to sanitize water and at higher doses,

and disinfect the water tank. They can be used in any water tank for storing water for hand washing.

HOW-TO-USE

Place tablet or tablets in freshwater holding tank. 1-gram tablet per 20 gal. will give you a safe ratio providing approximately 2.5 ppm of residual chlorine. This level should kill any e-coli and salmonella that may be in the water.

HOW-TO-SANITIZE

Put tablets in the tank and add water until nearly full. Tanks used to transport hand-wash water should be regularly sanitized using a solution of water and chlorine with 20 ppm of residual chlorine in clean potable water.

CLEANING PRODUCTS

The cleanliness and condition of your trucks, restrooms and trailers will determine how customers view your business. Use Safe-T-Fresh products to shine and polish your equipment, giving customers a reason to believe you offer the best service in the business.

ALL PURPOSE CLEANER

Make quick work of grease and grime in those hard to reach places with Safe-T-Fresh's All Purpose Cleaner. Perfect for the job-site or in the yard, this heavy-duty cleaner does it all.

URINAL CLEANER

Safe-T-Fresh's Urinal Cleaner's high-powered formula cleans off grease, adhesives, carbon-based soils, and masonry. Safe to use on metal, painted metal, and plastic.

DELIMER

Contains phosphoric acid to dissolve scum and hard-water stains. Also cleans and deodorizes urinals, shower stalls, and bathroom surfaces. Will remove most mildew stains.

ACCESSORIES

SPONGES

Safe-T-Fresh offers a variety of accessories to help with servicing portable restrooms, trucks, trailers, and service equipment. Safe-T-Fresh's accessory products will help keep your equipment looking good and running top notch. In an industry that does not have time for downtime, it's important to keep your equipment in the best shape possible.

Safe-T-Fresh offers heavy-duty sponges that work great to clean grease, grime, and graffiti off of portable restrooms. Safe-T-Fresh sponges can be used with a variety of Safe-T-Fresh products.

AVAILABLE SIZES

SPONGE

CASE

TOOLS

Safe-T-Fresh has all the tools needed to get the job done. With a variety of sizes in every tool, it's safe to say you will find what you need when you shop Safe-T-Fresh.

SUITES STARTER KIT

Safe-T-Fresh's Suites Starter Kit has everything you need to keep your Suites looking good and smelling fresh. The Suites Starter Kit comes with Quick Scents BIO 5K and 60g packets, along with urinal screens and all-purpose cleaner.

PUMP OIL ADDITIVE

To eliminate the offensive odors from portable restrooms and septic trucks use Safe-T-Fresh's Pump Oil Additive. The oil-based molecular odor neutralizer mixes into pump oil without damaging it.

EXHAUST VAPORIZER SCENT

Exhaust Vaporizer Scent uses a uniquely formulated essential oil to neutralize exhaust odors within a specially designed evaporation chamber. In the chamber, the essential oil is activated and vaporized by the heat of the pump's exhaust.
